Faculty Meeting, Nov. 21st, 2006

-Biological/Genetic Center is emerging.
-Center for Environmental Statistics is developing and meeting weekly.
-We may get the Center for Applied Statistics from Claremont McKenna.
-Request to add/remove prerequisites as necessary from courses.
-A note that some courses need better & more accurate descriptions, which will be looked at.
-A few remarks about dropping qualifying exams, primarily regarding concerns about dropping them made by the attending students (Ryan and David).
-There is a new SGSA website in the works, which is expected to launch early winter quarter.

Minutes composed by Ryan Rosario and David Diez
